FIRST CIRCULAR

ISFP-6(11)

**6th International Seminar
on
FERROELASTICS
PHYSICS**

**September 22-25, 2009
Voronezh, Russia**

The 6th International Seminar on Ferroelastics Physics will be held on September 22 - 25, 2009 at the Voronezh State Technical University, Russia. This Seminar is designed to bring together the international community of scientists interested in recent developments in all branches of ferroelastics investigations. The scope of the Seminar will be similar to that of the preceding seminar ISFP-5(10) in Voronezh (2006) and will cover all aspects of processing, structure, properties and applications of ferroelastic crystals.

Topics

1. Phase transitions, lattice dynamics and soft modes
2. Structure and crystal growth
3. Domains, domain boundaries and their dynamics
4. Mechanical and acoustic properties
5. Optical properties
6. Superionic conductivity
7. Ferroelasticity and superconductivity
8. Heterogeneous, glassy and incommensurate systems
9. Nanometer structures
10. Applications

The following types of presentations are proposed: invited talks (30-40 min), oral contributions (15-25 min) and posters.

Language

Russian and English will be the official languages of the Seminar

Organizing Committee

S.A. Gridnev – Honorary Chairman
L.N. Korotkov - Chairman
O.N. Ivanov – Vice-Chairman
O.A. Karaeva – Scientific Secretary

Members: A. Bratkovsky
I.N. Flerov
V.V. Lemanov
V.P. Sakhnenko
A.S. Sidorkin

Program Committee

A.S. Sigov – Chairman
O.N. Ivanov - Vice-Chairman
A. Kalgin – Secretary
B.M. Darinsky
Yu.F. Markov

Conference Schedule

February 28, 2009 - Deadline for pre-registration.
April 15, 2009 - Deadline for abstracts submission.
Jun 15, 2009 - Abstract acceptance.
Call for papers.
Preliminary program.
September 22-25, 2009 – Conference.

PRE-REGISTRATION FORM

to attend

6th International Seminar
